

Where Next for Sustainability?

Date: 11th February 2009

Time: 12.30pm – 4.30pm

Tea and Coffee from 1.30 pm

Venue: Crawley Library, Southgate Avenue, Crawley, RH10 6HG

Kent Architecture Centre and West Sussex Design Commission welcome you to the third Design Seminar event, hosted by Crawley Borough Council. The Kent Architecture Centre promotes better quality design across the South East. We are currently organising a series of seminars and debates called “**Where Next?**” to inspire good practice and to raise better understanding of how to achieve good design

Where Next for Sustainability?

2007 was a turning point on what sustainability meant for the construction industry with its new regulation and initiatives. The Government defined sustainability in terms of environmental objectives that can be measured, monitored and met. Last year was also the introduction of the Code for Sustainable Homes. This seminar explores the lessons learnt and the next stage of sustainability in terms of policy and practice.
