

Regional Design Excellence Forum

Where Next for Sustainability?

Date: 28th January 2009

Time: 1.30pm – 5.00pm
Refreshments at 1.30 pm

Venue: Corn Exchange, High Street, Rochester, Kent, ME1 1LX

Kent Architecture Centre promotes better quality design across the South East. We are organising a series of seminars and debates called “**Where Next?**” in conjunction with CABE to inspire good practice and to raise better understanding of how to achieve good design.

Where Next for Sustainability?

2007 was a turning point on what sustainability meant for the construction industry with its new regulation and initiatives. The Government defined sustainability in terms of environmental objectives that can be measured, monitored and met. Last year was also the introduction of the Code for Sustainable Homes. This seminar explores the lessons learnt and the next stage of sustainability in terms of policy and practice.

Agenda

- | | |
